Linkage Web Development

May 2019 – July 2019

- Coordinated project requirements between clients and developers
 - Managed project scope and timelines
 - Supported WordPress and WooCommerce project delivery
-

Web QA Representative

Linkage Web Development

June 2018 – May 2019

- Performed website quality validation and defect identification
 - Verified functionality, responsiveness, and standards compliance
-

Certifications

- n8n Course: No Code AI Agent Builder — Simplilearn
 - Automation Testing Basics — Simplilearn
 - Software Quality Assurance — TestDome
 - Introduction to Software Testing — Simplilearn
-

Automation Projects

- BFP System data extraction automation with pagination
 - Uptime Detector
 - WMS Excel Automation
-

AI Projects

- BFP Taguig App - Lovable, Google Antigravity
 - BFP Pasig App - Lovable, Google Antigravity
-

Technical Skills

Testing & QA

- Manual Testing
- Functional Testing
- Regression Testing
- Smoke Testing
- Mobile Testing
- Web Testing
- API Testing
- Test Case Design
- Defect Reporting

Automation & Performance

- Cypress
- Playwright
- Maestro
- Appium
- JavaScript
- Python
- k6
- Grafana
- n8n Automation

Tools & Workflow

- GitHub
- CI/CD
- Agile / Scrum
- Kanban
- VS Code
- OpenCode AI
- Cursor IDE

Education

Holy Angel University

Bachelor of Science in Information Technology
Specialization in Web Development
